

Sophie Martin

Senior Backend Software Engineer | Python | C++

Email • linkedin.com • San Antonio, Texas

Summary

Experienced Senior Backend Software Engineer with a strong focus on Python and C++. Proven track record in developing high-performance backend systems, optimizing architecture, and ensuring continuous availability of critical APIs. Skilled in AWS services, SQL/NoSQL databases, CI/CD, and infrastructure provisioning using Terraform. Master's degree in Computer Science and a passion for continuous learning. Noteworthy achievements include revolutionizing patient care through algorithm development, mentoring junior engineers, and contributing to open-source projects. Enthusiastic about joining a leading medical client in a flexible home working opportunity to save lives through cutting-edge technology and make a positive impact on healthcare.

Skills

Python, C++, Amazon AWS Services, SQL, MySQL, PostgreSQL, NoSQL databases, Atlassian JIRA, Confluence, Git, CI/CD, Terraform

Experience

MediTech Solutions

London, UK

Senior Backend Software Engineer

2019 - 2023

Developed and maintained high-performance APIs for fetching billions of patient data points, ensuring continuous availability for customers.

- Optimized backend systems written in Python and C++, resulting in increased performance and reliability.
- Implemented Infrastructure as Code (IaC) tools like Terraform for provisioning AWS resources.
- Designed and maintained core databases including Postgres, TimescaleDB, and MongoDB.
- Implemented Test-Driven Development (TDD) and utilized CI/CD tools for efficient software delivery.
- Collaborated with U.S. and U.K. teams to create functional table structures for software spanning 5 terabytes of data.

HealthTech Innovations

San Francisco, CA

Backend Software Engineer

2017 - 2019

Contributed to the development of a cloud-based electronic healthcare management software, ensuring accurate patient information.

- Collaborated with one of the largest cloud-based healthcare management software providers to integrate systems.
- Implemented SQL, MySQL, and PostgreSQL databases to handle large-scale patient data.
- Utilized Amazon AWS services to optimize system performance and scalability.
- Worked closely with cross-functional teams to deliver timely and accurate software updates.
- Participated in code reviews and provided valuable feedback to improve code quality.

TechSolutions Ltd.

Austin, TX

Software Developer

2015 - 2017

Developed and maintained software applications, contributing to various projects across multiple industries.

- Designed and developed advanced software projects for deployment in various products.
- Collaborated with clients to gather requirements and translate them into functional software solutions.
- Utilized Agile methodologies to ensure efficient project delivery.
- Participated in peer code reviews and provided constructive feedback.
- Implemented continuous integration processes to streamline software development.

Education

University of Texas at Austin

Austin, TX

Master of Science in Computer Science

2013 - 2015

Texas A&M University

College Station, TX

Bachelor of Engineering in Software Engineering

2009 - 2013

Projects

HealthTrack: Personal Health Tracking Application

Developed a personal health tracking application using Python and Flask. Open-source project available at github.com/healthtrack.

MediRisk: Risk Prediction System for Medical Conditions

Built a risk prediction system using machine learning algorithms to identify potential medical conditions. Open-source project available at github.com/medirisk.

Strengths

Problem Solving

Successfully resolved complex technical issues resulting in improved system performance and customer satisfaction.

Collaboration

Collaborated with cross-functional teams to develop and implement high-performance backend systems, ensuring seamless integration across platforms.

Leadership

Led a team of backend engineers to deliver critical projects on time, resulting in enhanced product functionality and customer experience.
